

# ATTENTION RESIDENTS!

**On Monday April 15, 2019**

Complete Landscaping will be on-site to perform our fertilizer and pre-emergent treatment. This fertilizer and pre-emergent application will provide nutrients to the soil for your turf. Also, it will prevent the germination of broadleaf and grassy weeds including crabgrass.

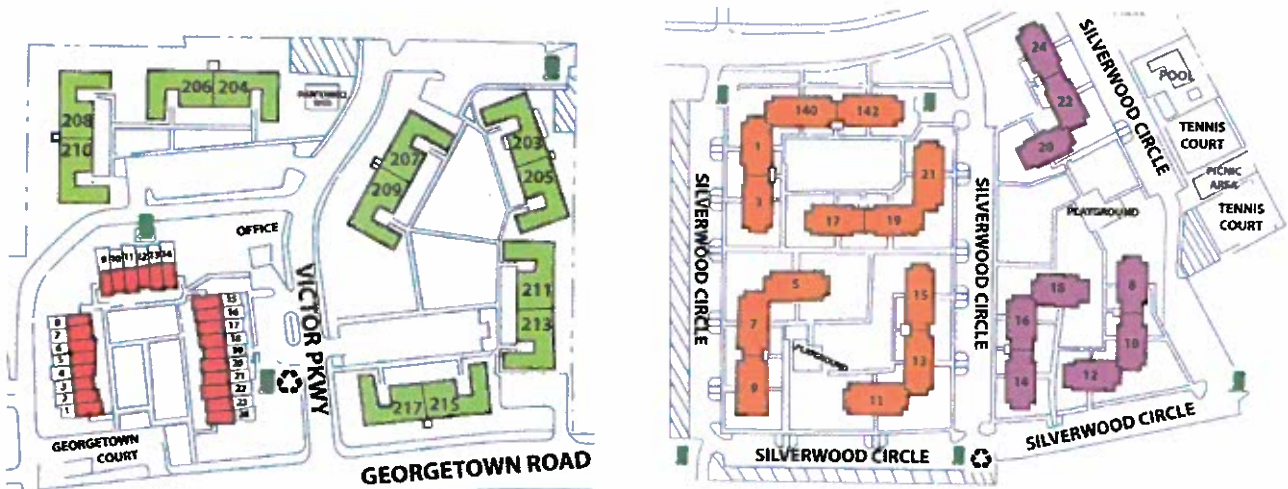

The product being used is Green Yard Crabgrass Preventer with 0.37 Calvacade

For additional information please contact the on-site office.

This application process will be from 8:30am until 3:30pm.

**Flags will be placed at all treated areas, please adhere to the following regulations:**

1. Please keep children and pets off of treated areas for 48 hours.
2. Please utilize pet relief areas, as these areas will not be treated.

**PET RELIEF AREAS** 

**Please contact the on-site office with any questions and/or concerns at 410-267-0566**
